Record Snow at Whistler beckons you!

Whistler Blackcomb is having one of its best openings in memory with back-to-back storm cycles blanketing the mountains in snow! Make plans to join us March 18-25, 2007.

Trip Insurance

You may think you don't need trip insurance. You're healthy, and because it's a trip you're looking forward to, you have no intentions of canceling. The dollars you spend on trip insurance could save you tens of thousands of dollars in expenses if you're not covered. In addition to cancellation insurance, it provides significant medical coverage, evacuation, and other assistance should be you be injured or fall ill on a trip. For more information and full plan details, visit Travelex at www.travelex-insurance.com or call 1-800-228-9792 and refer to location number 06-0677.
